

The Piggott School 16 – 19 Tuition Fund

The Piggott School's values alongside the work of the Education Endowment fund will guide the work that we do with pupils who are in receipt of the 16 – 19 tuition fund. Our priority is to work with those taking English or mathematics resits as this has a clear impact on future life chances

We have identified a cohort of 14 students who currently meet the criteria - English /Maths resit required, previously PP Year 13, EHCP & LAC)

The funding is being provided to support small group tuition for 16 to 19 students in English, maths, and other courses where learning has been disrupted. For example, vocational courses where assessment has been deferred because of lockdown. Although the actual tuition does not need to be for GCSE English or maths, the students supported all need to be those who had not achieved grade 5 or above in at least one of those subjects at this level by age 16. All supported students must be on a 16 to 19 study programme.

Providers should prioritise support for students who have not achieved a grade 4 in English and/or maths. However, further to those students, if providers have funding available within their allocations they should consider whether any young people with a grade 4 also need catch up support. Providers should prioritise students that will benefit most from small group tuition, based on the criteria above. Providers should also have regard to the needs of students with special educational needs and disabilities (SEND), particularly where they have experienced additional disruption to learning as a result of their specific needs and disabilities.
