# FlashAcademy®
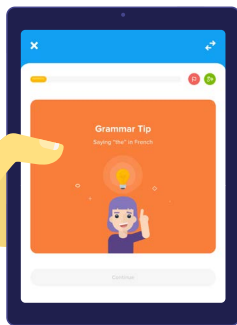

# Welcome to FlashAcademy®!

FlashAcademy®is a multi-award-winning Digital English platform created by Learning Labs which incorporates a unique combination of lessons, games, and adaptive technology to engage students and accelerate their English progress. The platform has a unique multi-modal approach, incorporating **listening**, **speaking**, **writing**, and **reading** challenges in a way that is fun and enjoyable for students.
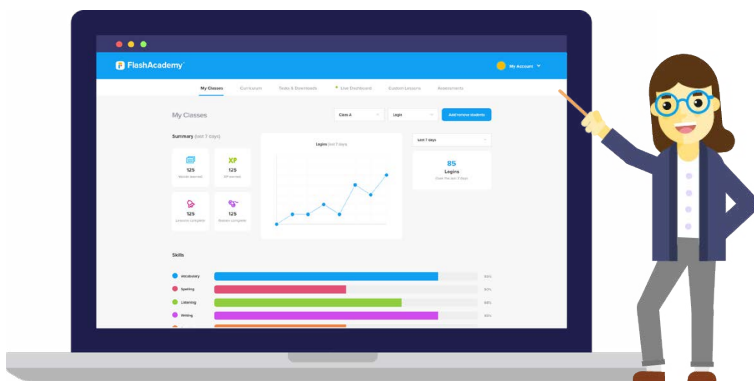

There are multiple categories to choose from including both **general** and **curriculum** topics and this app incorporates **vocabulary** learning with **grammar**, **handwriting**, and **phonics** practice. Lessons contain interactive activities to introduce vocabulary to students and there are also engaging games to help them learn and retain this vocabulary. Students earn XP points by completing lessons and games and can be rewarded for their success!

**Flashcards** are available so students can consolidate their learning further, with **audio and video demonstrations** available to give pupils a helping hand when needed.

There is also an **object translator** on the mobile app which enables students to continue learning while on the move as they can translate objects wherever they are.

The platform enables students to work independently from home and can be accessed on multiple different devices!

Uniquely, the platform teaches English from **46 different home languages**, a key factor for high engagement and more independent learning opportunities. Teachers have access to a full **Teacher Admin Dashboard**, from which they can **set assignments**, build **custom lessons**, and **track students'progress** quickly and easily.
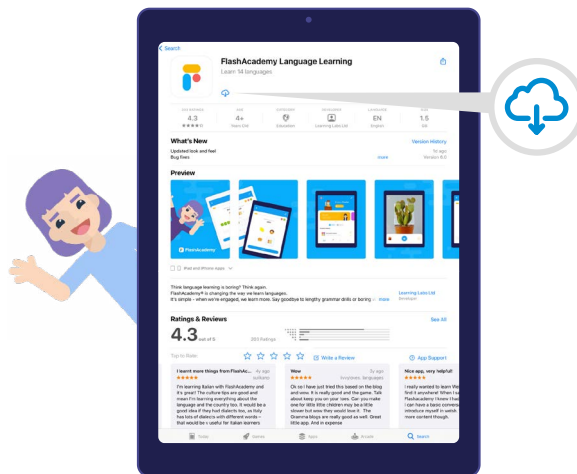

FlashAcademy® are excited about changing students' learning experience, making it fun and easy to learn another language!
