

Word Processor Policy

Policy/Procedure creator: Mrs Vicky Middleton

Policy/Procedure created/reviewed: 13/01/2022

Centre Name	The Piggott School
Centre Number	51609
Date policy first created	30/09/2020
Current policy approved by	Mrs Rebecca Alexander
Current policy reviewed by	Full Governing Body
Date of next review	30/09/2022

Key staff involved in the policy

Role	Name
ALS lead/SENCo	Mrs Viki Hunt
Exams officer	Mrs Vicky Middleton
Senior leader(s)	Mr Derren Gray : Head of Centre Mrs Rebecca Alexander : SLT with Examination responsibility
IT manager	Mr James Fisher
Other staff (if applicable)	Not Applicable

This policy is reviewed and updated annually on the publication of updated JCQ regulations.

References in this policy to **AA** and **ICE** relate to/are directly taken from the JCQ publications **Access Arrangements and Reasonable Adjustments** and **Instructions for conducting examinations**.

Introduction

(updated 2021/22) The use of a word processor in exams and assessments is an available access arrangement/reasonable adjustment.

The purpose of an access arrangement/reasonable adjustment is to ensure, where possible, that barriers to assessment are removed for a disabled candidate preventing him/her from being placed at a substantial disadvantage as a consequence of persistent and significant difficulties.

The following principles are applied to access arrangements at The Piggott School:

- (updated 2021/22) The purpose of an access arrangement/reasonable adjustment is to ensure, where possible, that barriers to assessment are removed for a disabled candidate preventing them from being placed at a substantial disadvantage as a consequence of persistent and significant difficulties. The integrity of the assessment is maintained, whilst at the same time providing access to assessments for a disabled candidate. (AA 4.2.1)
- (updated 2021/22) Although access arrangements/adjustments are intended to allow access to assessments, they are not granted where they will compromise the assessment objectives of the specification in question. (AA 4.2.2)
- (updated 2021/22) Candidates may not require the same access arrangements/reasonable adjustments in each specification. Subjects and their methods of assessments may vary, leading to different demands of the candidate. ALS leads/SENCOs must consider the need for access arrangements/reasonable adjustments on a subject-by-subject basis. (AA 4.2.3)
- (updated 2021/22) The Additional Learning Support lead/SENCO must ensure that the proposed access arrangement/reasonable adjustment does not unfairly disadvantage or advantage a candidate. (AA 4.2.1)
- (updated 2021/22) The candidate must have had appropriate opportunities to practice using the access arrangement(s)/reasonable adjustments before his/her first examination. (AA 4.2.7)

Purpose of the policy

(updated 2021/22) This policy details how The Piggott School complies with AA, chapter 4 (Managing the needs of candidates and principles for centres), section 5.8 (Word processor) and ICE, sections 14.20-25 (Word processors (computers, laptops and tablets) when awarding and allocating a candidate the use of word processor in examinations.

The term 'word processor' is used to describe for example, the use of a computer, laptop or tablet.

The use of a word processor

The Piggott School will:

- allocate the use of a word processor to a candidate with the spelling and grammar check/predictive text disabled (switched off) where it is their normal way of working within the centre (AA 5.8.1)
- (updated 2021/22) award the use of a word processor to candidates where appropriate to their needs (AA 5.8.4)

For example, a candidate with:

- a learning difficulty which has a substantial and long term adverse effect on his/her ability to write legibly
- a medical condition
- a physical disability
- a sensory impairment
- planning and organisational problems when writing by hand
- poor handwriting

- only permit the use of a word processor where the integrity of the assessment can be maintained (AA 4.2.1)
- not grant the use of a word processor where it will compromise the assessment objectives of the specification in question (AA 4.2.2)
- consider on a subject-by-subject basis if the candidate will need to use a word processor in each specification (AA 4.2.3)
- (update 2021/22) process access arrangements/reasonable adjustments at the start of the course, or as soon as practicable having firmly established a picture of need and normal way of working, ensuring arrangements are always approved before an examination or assessment (AA 4.2.4)
- provide the use of word processors to candidates in non-examination assessment components as standard practice unless prohibited by the specification (AA 5.8.2)

The Piggott School will not:

- (updated 2021/22) simply grant the use of a word processor to a candidate because he/she now wants to type rather than write in examinations or can work faster on a keyboard, or because he/she uses a laptop at home (AA 5.8.4)

Exceptions

The only exceptions to the above where the use of a word processor would be considered for a candidate, would be:

- in the event of a temporary injury or impairment, or a diagnosis of a disability or manifestation of an impairment relating to an existing disability arising after the start of the course (AA 4.2.4)
- (updated 2021/22) where the curriculum is delivered electronically and the centre provides word processors to all candidates (AA 5.8.4)

Other centre specific information relating to the use of a word processor:

Not applicable

Arrangements at the time of the assessment for the use of a word processor

A candidate using a word processor is accommodated as follows:

All word processors are located in the same area of whichever room the exam is due to take place. this may be in a small or solo room or in room with the main cohort.

In compliance with the regulations, The Piggott School:

- provides a word processor with the spelling and grammar check facility/predictive text disabled (switched off) unless an awarding body's specification says otherwise (ICE 14.20)
- (where a candidate is to be seated with the main cohort without the use of a power point) checks the battery capacity of the word processor before the candidate's exam to ensure that the battery is sufficiently charged for the entire duration of the exam (ICE 14.21)
- ensures the candidate is reminded to ensure that the centre number, candidate number and the unit/component code appear on each page as a header or footer e.g. 12345/8001 – 6391/01 (ICE 14.22)
- if a candidate is using a software application that does not allow for the insertion of a header or footer, once the candidate has completed the examination and printed off their typed script, he/she is instructed to handwrite their details as a header or footer; the candidate is supervised throughout this process to ensure that he/she is solely performing this task and not re-reading their answers or amending their work in any way (ICE 14.22)
- ensures the candidate understands that each page of the typed script must be numbered, e.g. page 1 of 6 (ICE 14.23)
- (updated 2021/22) ensures the candidate is reminded to save his/her work at regular intervals (or where possible, an IT technician will set up 'autosave' on each laptop/tablet to ensure that if there is a complication or technical issue, the candidate's work is not lost) (ICE 14.24)
- instructs the candidate to use a minimum of 12pt font and double spacing to make marking easier for examiners (ICE 14.24)

The Piggott School will ensure the word processor (ICE 14.25):

- is only used in a way that ensures a candidate's script is produced under secure conditions
- is not used to perform skills which are being assessed
- is not connected to an intranet or any other means of communication
- is in good working order at the time of the exam
- is accommodated in such a way that other candidates are not disturbed and cannot read the screen
- is used as a typewriter, not as a database, although standard formatting software is acceptable and is not connected to an intranet or any other means of communication
- is cleared of any previously stored data
- does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.
- does not include graphic packages or computer aided design software unless permission has been given to use these
- does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of automatic spell checking
- does not include speech recognition technology unless the candidate has permission to use a scribe or relevant software
- is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe

Portable storage medium

The Piggott School will ensure that any portable storage medium (e.g. a memory stick) used:

(ICE 14.25)

- is provided by the centre
- is cleared of any previously stored data

Printing the script after the exam has ended

The Piggott School will ensure that:

(ICE 14.25)

- the word processor is either connected to a printer so that a script can be printed off, or have the facility to print from a portable storage medium
- the candidate is present to verify that the work printed is his/her own
- a word processed script is attached to any answer booklet which contains some of the answers
- where an awarding body requires a cover sheet to be completed this is included with the candidate's typed script (according to the relevant awarding body's instructions)
- if a candidate omits to insert the required header or footer, he/she is instructed to handwrite the details as a header or footer; the candidate is supervised throughout this process to ensure that he/she is solely performing this task and not re-reading their answers or amending their work in any way (ICE 14.22)

Other centre specific information relating to arrangements at the time of the assessment:

The Piggott School uses an application known as ExamWrite which applies the necessary headers and footers to each printed page. This information is added by the student prior to starting the examination

Statement

JCQ regulations (**Access Arrangements and Reasonable Adjustments**, section 5.8) state: A member of the centre's senior leadership team must produce a statement for inspection purposes which details the criteria the centre uses to award and allocate word processors for examinations.

The criteria used to award and allocate word processors for examinations

The Piggott School confirms the normal way of working in examinations is:

- candidates handwrite responses on their examination scripts (an exception to this is where a candidate may have an approved access arrangement in place, for example the use of a scribe/speech recognition technology)

Awarding the use of word processors

There are exceptions when The Piggott School may award a candidate the use of a word processor in examinations where:

- the candidate has a firmly established need
- it reflects the candidate's normal way of working
- by not being awarded a word processor the candidate would be at a substantial disadvantage to other candidates

This may include where a candidate has, for example:

- a learning difficulty which has a substantial and long term adverse effect on his/her ability to write legibly
- a medical condition
- a physical disability
- a sensory impairment
- planning and organisational problems when writing by hand
- poor handwriting

(This list is not exhaustive)

The only exceptions to the above where the use of a word processor may also be considered for a candidate would be:

- on a temporary basis as a consequence of a temporary injury at the time of the assessment
- where a subject within the curriculum is delivered electronically and the centre provides word processors to all candidates

Other centre specific information relating to awarding the use of a word processor:

Not applicable

Allocating the use of word processors at the time of the assessment

Appropriate exam-compliant word processors will be allocated by:

- the IT department in liaison with the ALS lead/SENCo and the exams officer

In exceptional circumstances where the number of compliant word processors may be insufficient for the cohort of candidates approved to use them in an exam session:

- the cohort will be split into two groups
- one group will sit the exam earlier than or later than the awarding body's published start time
- the security of the exam will be maintained at all times and candidates will be supervised in line with section 7.2 of ICE

Other centre specific information relating to allocating the use of a word processor:

Not applicable
