Curriculum Map: History Year 12 Independent Investigation

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Content	Research	Research	Research	Individual research	Skills	Skills
Declarative						
knowledge	- key requirements of	- concept of a historical	- techniques to find	- carry out historical	- use of primary sources	- planning an overall
'I Know'	coursework	problem	primary sources and	research	to evaluate an	argument
	- skim reading	- what makes a good	interpretations		interpretation	- what constitutes a
	- note-taking	historical question	- what constitutes a historical interpretation		- use of provenance and contextual knowledge to	good introduction - narrative and
					evaluate a source - evaluative language	description - what 'discussion' looks
						like
						- consistent focus on a question
Skills	- select an appropriate	- identify historical	- compile a list of	- skim read	- use a primary source to	- create an organised
Procedural	coursework topic	disagreement	appropriate research	- take notes	evaluate an	plan for the write-up of
Knowledge 'I know how to'	- skim read - take notes	- frame an enquiry question	resources - locate primary sources	- investigate historical arguments	interpretation - use contextual	the individual investigation
I KNOW NOW to	- take notes	question	and interpretations	- access appropriate	knowledge and	- produce a focused
				resources	provenance to evaluate	introduction
					a primary source	- focus on discussion and
					- how to organise and	analysis rather than
					plan research	description
					- plan the next steps of	- integrate
					research	interpretations and
						sources into an
						argument - evaluate
						interpretations using
						sources and contextual
						knowledge
						- make sustained
						judgments

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Strategies Conditional Knowledge 'I know when to'	- read in outline and when to read in depth - to make notes	- focus on a particular area of research and when to change the focus	- select a piece of material as appropriate for research	- select a piece of material as appropriate for research	- use references in books and articles to locate further areas of research	- use an interpretation to demonstrate an argument - use a source to evaluate an interpretation - make an interim judgement
Key Questions	What is the coursework about? How do I choose a topic? How do I take notes?	What are the key historical problems associated with my topic? How could I frame my question?	How do you compile resources for your question? How do I find primary sources? How do I find interpretations?	N/A	How do I use primary sources to test a view? How do I use provenance to evaluate a source? How do I use contextual knowledge to evaluate a primary source? How do I apply my skills in evaluating primary sources? How do I test an interpretation? How do you keep track of your progress?	How do you write a plan? How do you write the introduction? How do you avoid narrative and description? What does 'discussion' mean? How do you keep focused on the question? How do you integrate sources and interpretations? How do you evaluate factors? How do you make a judgement?

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Assessment topics	N/A	N/A	N/A	N/A	Practice evaluation of an interpretation	Practice introduction
topics					interpretation	Practice paragraph
					Practice evaluation of a	
					source
