- 1) Look at the word and count the number of letters and syllables.
- 2) Identify the part (s) of the word that is (are) tricky – circle, underline or highlight.
- 3) Devise a strategy to help learn the word: use a mnemonic (eg **D**ogs **O**ften **E**at **S**ausages – DOES), look at the word shape - is there a recognisable pattern of ascenders and descenders like in the word **elephant**, look at the way the word is built up from prefixes, roots & suffixes ( *un* –comfort –*able* or *trans* – port - *ed* )

There

or use a visual cue e.g. Here the letter 'i' is a person and the 'r' is a signpost to over there.

- 4) Every day, look at the word, say it, then cover, write and check it.
- 5) Write a sentence for each of your words on the back of the sheet – if you don't know what a word means, look it up in a dictionary!

This image shows a full page of handwriting practice paper. It contains ten sets of horizontal lines, each set consisting of three lines: a solid red line at the top, a dashed red line in the middle, and a solid red line at the bottom. These lines are designed to help students practice letter formation and alignment. The paper is otherwise blank, with no text or other markings.
